

# BAKE XPRESS

## The World's Only Multi-Product Micro-Bakery

Bake Xpress is the only vending machine in the world to offer a full menu of freshly-baked pastries and meals like pizzas, pasta, and sandwiches. Sweet and savory artisan foods are partially-prepared at a traditional bakery before being transferred to the Bake Xpress refrigeration unit. At time of order, Bake Xpress uses robotic, sensor, and AI technology to select the appropriate item, calibrate the combination smart oven based on the food's custom baking profile, and freshly-bake each item at time of purchase. The result is hot, fresh restaurant-quality food at any time of day or night, and a significant upgrade to traditional vending options.

Innovative robotic technology

Full menu of artisan foods

Freshly-baked at time of order

Available 24/7

# A Look Inside Bake Xpress

## A Full Menu of Meals & Pastries

Bake Xpress contains the technology to custom bake a wide variety of meals and pastries on demand using a combination of microwave, infrared, and convection technology to replicate a true restaurant or bakery experience. Machine operators can choose the menu items that will be most popular with their customers.

Want to add your bakery's own products? No problem! Simply adjust and capture the precise oven settings via the on-screen or remote software and assign the new profile to your items via barcode. Le Bread Xpress can even white label your machine so that you can apply your own branding to the exterior!

## Ideal for High-Traffic 24/7 Locations

### EXTERNAL

Exterior	55"W x 40"D x 75"H
Touchscreen	55" (diagonal)
Power supply	220V Single Phase 50/60 Hz 18A - 30A (max)

Payment	NAYAX/VPOS Touch Apple Pay, Android Pay
---------	--

Plumbing	Not required
Exhaust	Not required

### INTERNAL

Refrigerator Capacity	68-96 items
Refrigerator temperature	0-5° C
Oven	Combination Infrared/Convection/Microwave
Oven temp	Custom settings per item: up to 400°F

### TECHNOLOGY

Connection	5G/WiFi/Wired
Bar code	For inventory and baking profile
Software	Cloud based tracking of inventory and machine operation
Sensor	10-15 temperature, pressure, motion, and position sensors monitor and calibrate machine function
Robotics	For food selection and delivery

### FOOD

Shelf life	3-7 days
Food cost	\$0.50 - \$5.00/item
Food price	\$4.00 - \$8.00/item
Packaging	8x8x2" box
Baking	Individually calibrated and communicated via barcode
Inventory	Remote tracking cloud-based software
Source	Natiowide supply network or own items
